**Enviro has received a follow-up order on EnviroCB from an international tyre manufacturer. The order is Enviro's single largest so far, the order value is over 100 000 SEK. Revenues are expected in Q2 2018.**

**– Compared to the previous order, the volume is now significantly greater. The customer is a global manufacturer of tyres and rubber applications, says Thomas Sörensson, CEO Enviro.**

The international tyre manufacturer made the first order at the beginning of the year after thorough material tests. The delivered EnviroCB will be used for solid tyres manufactured in Sri Lanka.

– Receiving a follow-up order of a much larger volume demonstrates both the quality of material and the market's growing need for reclaimed carbon black. This is one of several major solid tyre manufacturers where we see growing interest, in addition to the several tyre manufacturers we have received positive feedback from, says Thomas Sörensson, CEO of Enviro.
