

# Scandinavian Enviro Systems signs an MoU with a Canadian partner in the energy business

*N.B. The English text is an in-house translation of the original Swedish text. Should there be any disparities between the Swedish and the English text, the Swedish text shall prevail.*

**Scandinavian Enviro Systems AB (publ) ("Enviro") has signed an MoU with ArticCan Energy Services Inc, an energy services provider from Canada.**

Enviro has signed an MoU (Memorandum of Understanding) with ArticCan Energy Services Inc as a first step in establishing a new plant in Canada. The agreement is valid for a period of 18 months and applies to a recycling plant of 30 000 tonnes of end of life tyres per year.

ArticCan has been in operations for over 10 years. They provide services to the Oil & Gas industry, and have expanded their operations to include provision of energy efficiency, environmental and sustainability services.

"Canada is a very important market for us. Several leading tyre manufacturers are established in the region and there is also a high presence of other rubber producers as well", says Thomas Sörensson, CEO of Enviro.

"The signing of the MoU with Enviro represents a significant milestone in our strategic vision of finding a sustainable solution that allows recovery of valuable materials from end of life tyres", says Dr. Anastassia Manuilova, VP, Energy and Environment of ArticCan.

Thomas Sörensson and Anastassia Manuilova.
