

Year End Report January – December 2021

3D model of the planned plant in Uddevalla.

Year End Report Scandinavian Enviro Systems AB (publ) January – December 2021

N.B. The English text is an in-house translation of the original Swedish text. Should there be any disparities between the Swedish and the English text, the Swedish text shall prevail.

Q4 2021

- Net revenues for the period were MSEK 1.0 (0.4)
- Earnings after tax for the period were MSEK -18.6 (-13.7)
- Earnings per share for the period (before dilution) was SEK -0.03 (-0.02)
- Cash flow for the period after investments was MSEK -16.6 (-14.4)
- Enviro completes a directed new share issue, raising approximately SEK 125 million before transaction costs where Michelin has invested to retain its ownership of 20%.
- Enviro decides on location and applies for environmental permit for recycling plant in Uddevalla

Jan-Dec 2021

- Net revenues for the period were MSEK 7.6 (1.5)
- Earnings after tax for the period were MSEK -57.0 (-50.0)
- Earnings per share for the period (before dilution) was SEK -0.10 (-0.09)
- Cash flow for the period after investments was MSEK -55.7 (-48.4)
- Enviro receives order from Michelin for engineering services worth MSEK 4
- Enviro and Michelin sign definitive agreements on strategic partnership
- Michelin's new racing tyres has better performance and less climate impact due to recovered carbon black from Enviro
- Enviro strengthens its capital via a directed issue of MSEK 21.0 before transaction costs
- Two warrant programs for the board and the management/key employees are approved by the AGM, leading to a total capital injection to the Company with MSEK 5,6
- Enviro's recovered oil and carbon black receive ISCC sustainability certification.

Significant events after end of period

- Enviro receives a pyrolysis oil order worth MSEK 2 from a subsidiary of a leading US oil company

Enviro is a company developing, building and operating industrial plants for material recovery from End-of-Life Tyres (ELT). The company has developed a process, based on a patented technology, where gas generated in the process is heating the tyres in absence of oxygen. This enables the materials in the tyres to decompose and be recovered instead of incinerated. Thus, a sustainable recovery of the resources Carbon black, Oil, Steel and Gas is obtained. The products are used in new products, replacing fossil resources to help the customers reach their sustainability targets. Enviro was founded in 2001, has its head office in Gothenburg and runs its own plant for ELT tyres in Åsensbruk, Sweden. The company is listed on the First North Growth Market with Mangold Fondkommission AB, tel. +46 (0)8 5030 1550, ca@mangold.se, as its Certified Advisor. www.envirosystems.se

An intense quarter concluded a milestone year for Enviro

The fourth quarter of 2021 was characterised by intense activities to industrialise our technology. A decision was made on the specific localisation of our future plant in Uddevalla, which meant that an application could be submitted for an environmental permit for the facility. Our finances were strengthened through a directed share issue of MSEK 125. The quarter concluded what in many ways must be considered a milestone year for the company.

At the beginning of October, MSEK 125 was generated for the company through a directed share issue aimed mainly at institutional investors, which strengthened the financing of the continued commercialisation and industrialisation. Slightly more than a month later, the Board of Directors decided on the localisation of the future plant in Uddevalla. Accordingly, it was also possible to finalise the application for an environmental permit for the plant and ultimately submit it to the County Administrative Board.

In December, it emerged that the EU mass balance directive entailed that the ISCC certification of our pyrolysis oil, which we obtained in September, would have even more favourable implications than we previously forecast. Within the framework of the EU system for mass balance, our ISCC-certified pyrolysis oil may namely be used for the production of renewable fuels, which naturally makes it extremely attractive commercially. This was confirmed by the order valued at MSEK 2, which we recently secured from the subsidiary of a leading US oil company. The oil will be used there for full-scale production tests, which is a decisive step ahead of long-term supply agreements for oil from current and future plants.

The environmental certification of pyrolysis oil described above occurred at the same time as we became first in the world to obtain a sustainability certification for carbon black in accordance with the International Sustainability & Carbon Certification system (ISCC).

At the beginning of last year, negotiations were concluded on a strategic partnership with Michelin, which also included an agreement to establish a jointly owned full-scale recycling plant in Chile. Intensive preparations for this establishment proceeded throughout the year. At the same time, Michelin published news related to Enviro and our recovered carbon black on repeated occasions during the year; launches have included high-performance tyres and racing tyres for motorcycles, based on our carbon black. Michelin also continued to maintain its 20-per cent holding in the company's shares in conjunction with new share issues.

In other respects, 2021 was also an exciting and eventful year for Enviro, which is reflected in the not fewer than 37 press releases that we had reason to publish! Given such an intense news flow, it is easy to get caught up in details; accordingly, there is reason to look up and view last year from an overall perspective. It is then possible to see that, during the year, Enviro took large and decisive steps toward industrialising and commercialising its technology.

2021 was therefore a milestone year for our company – a year that gives a large amount of confidence as we face the future.

Thomas Sörensson

Chief Executive Officer

Below: Status of the interest in Enviro's carbon black and potential carbon black customers.

The customers in these graphs all have at least a status where production tests have or are being conducted. The graphs clearly show an increase in interest for our recovered carbon black, especially from the tyre industry.

Below: Status ongoing customer contacts regarding future plants

Customer	Cap. 'tonnes tyres/year	Status	Type	Country
Michelin	30	Agreement signed	Tyre Manufacturer	Chile
Own Project	Max 60	Permit process	N/A	Sweden
Own project	90	Feasability study	N/A	UK

The above listed projects are the ones Enviro assesses as having the biggest probability to be realised within 24 months. As a result of the new business model, we will prioritize projects where we evaluate that a co-ownership will be the most favourable one.

Financial summary

Q4 2021

Group revenues and results

Net revenues for the period were MSEK 1.0 (0.4). Operating results totalled MSEK -18.0 (-13.7), and earnings after tax were MSEK -18.1 (-13.7). The decrease of the result compared to last year with MSEK 4.4 is mainly explained by higher external costs of MSEK 3.8, majorly externa consultancy costs. The personnel costs were MSEK 0.7 higher than during the same period last year mainly due to strengthening of the staff in both the parent company and the subsidiary. Further the depreciation has been MSEK 0.2 higher than during the same period in 2020. On the other hand, the gross profit is MSEK 0.3 higher than last year mainly due to increased turnover in connection with the project in Chile together with Michelin.

Investments and financial standing

Investments of the group in fixed assets amounted to MSEK 6.6 (2.8). The investments consist of additional investments in the plant in Åsensbruk, as well as a FEED (Front End Engineering Design) for a future plant. The cash flow from operating activities after investing activities for the period were MSEK -16.6 (-14.4). The decrease in the cashflow is related to a lower operating result before adjustments of working capital of MSEK 4.2. However, the changes in working capital have been positive with MSEK 5.9 during the period. This increase is mainly related to an increase in trade payables. Additional to that, the investments have been MSEK 3.8 higher compared to the same period 2020.

During Q4 the parent company has secured additional capital of MSEK 125 before transaction costs via a directed issue of 65,798,474 shares to mainly institutional investors. The Company's largest shareholder Michelin has subscribed for its current share and has thereby retained its ownership of 20.0. The subscription price in the Directed New Share Issue was set to SEK 1.90 and was determined through a so-called accelerated bookbuilding procedure carried out by the Company's financial advisor Pareto Securities AB. The Directed New Share Issue did entail a dilution of approximately 10.0 percent.

JANUARY – DECEMBER 2021

Group revenues and results

Net revenues for the period were MSEK 7.6 (1.5). Operating results totalled MSEK -56.9 (-47.8), and earnings after tax were MSEK -57.0 (-50.0). The decrease of the result compared to last year with MSEK 7.0 is explained of by higher external costs in connection with consultancy support as well as running costs in connection with improvements in the plant in Åsensbruk, all in all totally MSEK 6.3 higher than during the same period in 2020. The personnel costs are totally MSEK 5.8 higher than last year mainly due to strengthening of the staff in both the parent company and the subsidiary as well as payments of achievement related remunerations. In addition to that depreciation has been MSEK 0.6 higher than during the same period last year. On the other hand, there is an increase in gross profit of MSEK 5.6 mainly due to invoicing from the parent company for engineering services according to an agreement with Michelin concerning a jointly owned plant in Chile, but also the external turnover from the plant in Åsensbruk has increased. The finance net was MSEK 0.1 better than the same period last year.

Investments and financial standing

Investments of the group in fixed assets amounted to MSEK 14.4 (10.8). The investments consist of additional investments in the plant in Åsensbruk, as well as a Front End Engineering Design (FEED) for the coming plant. The cash flow from operating activities after investing activities for the period were MSEK -55.7 (-48.4). The decrease in the cashflow is related to a lower operating result before adjustments of working capital of MSEK 6.4. However, the change in working capital has been positive during the year with MSEK 2.7. The investments have been MSEK 3.6 higher compared to 2020.

During Q2, the parent company has secured additional capital of MSEK 21.0 before transaction costs via a directed issue. In connection with allotment of warrants to the board and key employees, the company received additional capital of MSEK 5.6. As previously mentioned, the company has secured additional capital of MSEK 125 before transaction costs via a directed issue.

The group cash amounted to MSEK 123.2 (39.6) at the end of the period.

The equity/assets ratio was 93 (90) percent.

Parent company

The net revenues for the parent company totalled MSEK 8.6 (3.2), and the result after tax was MSEK -53.4 (-48.5). Around 60% of the turnover are sales related to engineering services that are included in the agreements between the company and Michelin that were agreed and approved during Q1. Around 40% of the turnover is invoicing to group companies for internal services. For the rest the company has incurred higher external expenses, mainly consultancy expenses which are MSEK 5.6 higher than last year. The staff costs are MSEK 4.9 higher than during the same period last year, mainly due to strengthening of the staff as well as payments of achievement related remunerations. The investments in fixed assets amounted to MSEK 8.1 (4.4). The investments of the year are mainly related to a FEED for a future plant.

The Equity/assets ratio at the period-end was 96 (97) %.

Further, the parent company has secured additional capital of MSEK 21.0 via a directed issue. In connection with allotment of warrants to the board and key employees, the company received additional capital of MSEK 5.6. As previously mentioned, after the end of the period the mother company has secured another MSEK 125 before transaction costs via a directed share issue.

Staff and Organisation

The group has 23 (22) employees at the period-end.

Executed transactions with related parties

For 2021 consultancy fees to P 30 Ltd, (Peter Möller, board member), of MSEK 1.2 have been

included. Further, the parent company has invoiced Michelin the equivalent of MSEK 5.5 for engineering services according to agreement. Further, the subsidiary Tyre Recycling in Sweden AB has invoiced three different Michelin-owned companies for an amount of around SEK 0.4 million. This concerns sales of recovered carbon black and services. These transactions are evaluated by the company management to be according to market conditions. In connection with the, by the AGM, approved incentive programs LTIP 2021/2024 and LTIP 2021/2025 Tyre Recycling in Sweden AB has acquired 17,947,528 warrants for a total of around MSEK 8.3 from the parent company. Tyre Recycling in Sweden AB has, after that, made an allotment of 6,074,260 warrants in the program LTIP 2021/2024 for around MSEK 2.7 and 5,945,900 warrants in the program LTIP 2021/2025 for around MSEK 2.9.

Number of shares

Total shares outstanding at the end of the period was 656,615,589 (580,826,115).

Risks and uncertainties

A detailed description of risks and uncertainty factors is provided on page 41 and 54 of the annual report of 2020 as well as on pages 18-22 in the 2018 share issue prospectus. Covid-19 could have a negative effect on the commercialisation of the company, not least through potential imbalances in logistical flows and/or lock-down situations of societies or partly thereof.

FINANCIAL KEY RATIOS

Accounting policies

The consolidated reports for the group are prepared in compliance with the Swedish Annual Accounts Act, and BFNAR 2012:1 Annual Accounts and Consolidated Financial Statements (K3). Applicable accounting policies are detailed in the company consolidated annual report note 1.

Financial Key Ratios

	okt-dec 2021	okt-dec 2020	jan-dec 2021	jan-dec 2020
